# SPECTRUM '23
## TEACHER'S DAY SPECIAL

**Shetty Group of Institutions**

Institute of Technology

## HEARTILY WELCOME TO

### ALL THE MEMBER'S OF SGI

### TO THE SPECIAL EVENT

### Organized by Students of SIT

### Join us!

In honoring the mentors, the educators, and the inspirations who make SIT shine.

LET'S MAKE THIS TEACHERS' DAY UNFORGETTABLE TOGETHER.

Save the Date and time

10:00 am, 05 Sept 2023

## Come one, come all

AS WE EXPRESS OUR GRATITUDE FOR THEIR TIRELESS DEDICATION. OUR TEACHERS DESERVE THE SPOTLIGHT, AND YOUR PRESENCE WILL MAKE THIS DAY TRULY SPECIAL.

- Delicious LUNCH will be served to satisfy your taste buds.

- But that's not all! We've got a DJ ready to spin the tunes and set the party mood! 🎉

PLAY THE Game

# SPECTRUM '23

## TEACHER'S DAY SPECIAL

## Spectrum meaning

As light passes through a prism, it is bent, or refracted, by the angles and plane faces of the prism and each wavelength of light is refracted by a slightly different amount. Violet has the highest frequency and is refracted the most. Red has the lowest frequency and is refracted the least.

**Here Light are Teachers ,prism is College, and scattered light are students**

*So Teacher spread their knowledge like light, in college (prism ) and makes students shine in different colours.*
